Professional Experience

Full Stack Developer, *Full Stack Developer*

01/2023 – 01/2025

- Developed and maintained web applications primarily using Next.js 15, JSX, and Tailwind CSS.
- Played a key role in building the "Al-I'tibar Al-Arabi Educational Platform".
- Built dynamic and responsive user interfaces.
- Developed and integrated RESTful APIs using Node.js and Express.js.
- Managed and interacted with databases including PostgreSQL and MongoDB.
- Collaborated closely with design and development teams to deliver high-quality products.

Education

Bachelor's in Management Information Systems, *University of Aleppo, Syria*

Graduated in 2019, laying the foundation for my career in information technology and systems management.

Master's in Artificial Intelligence, *University of Aleppo, Syria*

Graduated in 2019 with a focus on AI technologies and methodologies.

Skills

Front-end Development:

- JavaScript (ES6+)
- TypeScript
- Next.js 15
- React
- Strapi 5
- JSX
- Redux Toolkit
- HTML5
- CSS3
- Tailwind CSS
- SASS/LESS
-

Databases:

- PostgreSQL
- MySQL
- MongoDB

Back-end Development:

- Strapi 5
- Node.js
- Express.js

DevOps & Tools:

- Git
- Docker
- Vercel
- AWS
- CI/CD

Languages

Arabic

Native Proficiency

English

Advanced Proficiency

Interests

Full-Stack — Full-Stack Web Development | Learning and implementing new web technologies | Building scalable and efficient web applications | Open-source contributions | Problem-solving and algorithm design | Staying updated with industry trends in AI and web development

Certificates

Front - end , Back - End , English

- Completed various online courses and training programs on platforms such as Coursera, Udemy, Progate, and New Horizon.
- Focused on areas including Front-end Development, Back-end Development, and Full-Stack Web Development.

Introduction to Software Engineering

.Coursera

JS , TypeScript , Next JS , React JS , Mongo DB , PostgreSQL

Coursera

Introduction to HTML, CSS, & JavaScript

Coursera

Projects

Tatrnii Shoe Store:

02/2025 – 05/2025

Built a multi-user e-commerce store for selling shoes , React, Node.js, Express.js, MongoDB.

- Developed the entire frontend using React, creating a responsive and engaging user interface.
- Built and maintained the backend RESTful APIs with Node.js and Express.js.
- Integrated a secure payment gateway (e.g., Stripe), leading to a smoother checkout process.
- **Challenge & Solution:** Resolved performance bottlenecks during peak traffic by optimizing database queries in MongoDB and implementing server-side caching, improving overall responsiveness.

Al-I'tibar Al-Arabi Educational Platform

01/2024 – 04/2024

Developed a comprehensive educational platform. Next.js 15, Tailwind CSS, Strapi, PostgreSQL.

- Led the frontend development using Next.js 15 and Tailwind CSS, achieving a 30% improvement in page load speed.
- Implemented a complex state management system using Redux Toolkit, significantly reducing bugs and improving maintainability.
- Integrated the frontend with the Strapi 5 backend via RESTful APIs for dynamic content delivery.
- **Challenge & Solution:** Overcame difficulties in managing user authentication securely across multiple modules by implementing a JWT-based authentication flow, enhancing platform security.
- <https://github.com/MohammedNourTeeby/CopyPlattForm.git> 

Key Achievements

- *Developed a secure authentication system integrating Redux Toolkit with JWT, improving user login security and session management.*
- *Built reusable educational modules for the Al-I'tibar Al-Arabi platform, reducing development time for new course features by an estimated 25%.*
- *Optimized database queries and implemented caching, leading to a significant improvement in application response times.*
